

Making more of the Natural and Cultural Heritage along our coastline

Dumfries and Galloway has over 200 miles of spectacular coastline and plays host to a fascinating array of natural and cultural opportunities from the salt marshes in the east to the beginnings of Scottish Christianity in the west. But could we do more to celebrate our heritage and to help stimulate the coastal economy?

Join us to hear about the opportunities we have and to help influence the ways we can make more of it.

Tuesday July 8th 2014 10.30am – 3.30pm
