Industrial Estate

What is Required to Set Up a Link

- A host with a good broadband connection willing to share or allow installation of a dedicated line
- Line of sight to the recipient or to a midpoint
- A suitable location to mount the sending antenna
- A suitable mounting point at the recipient end
- A hosting contract
- If higher speeds are required a 3rd party aggregating service eg SharedBand or Connectify Dispatch (a software based solution)

Thank You for Listening
